

Networking Events 2009

We aim to promote a range of training opportunities for businesses in the East of England who want to reduce costs and increase profits through successful environment management. All networking events are based around topics that clients have expressed an interest in and are a good opportunity for sharing of best practice and networking.

Business Investors members enjoy a significant saving on all training offered. For further information on joining Business Investors please visit www.businessinvestors.co.uk

Carbon Footprinting

This Carbon footprinting workshop has been designed using the Carbon Trust's Carbon footprint calculator and looks to equip delegates with an understanding of what a carbon footprint is and some practical training on how to calculate and reduce the Carbon footprint for their own organisation.

Training Date	Cost	Duration
5th February 2009	Free	1.25 hrs

Carbon Reduction Commitment

This tender training course is designed to help you win new business. It incorporates everything you need to know about tendering, especially for the public sector. Even if you have never tendered before then by attending this course it will give you the skills and information to be able to tender.

Training Date	Cost	Duration
9 th July 2009	Free	1.25 hrs

Environmental Legislation – featuring the Environment Agency

Environmental legislation is an ever evolving area. Keeping up with new legislation, including Site Waste Management Plans, WEEE and the pre-treatment of waste regulations can be hard, so why not learn more about new and impending legislation at this workshop. The workshop will also include starting to develop a customised register of environmental legislation for your organisation, to make sure your businesses operations are legally compliant.

Training Date	Cost	Duration
TBA 2009	Free to members/new businesses; £50 non-members	2.5 hrs

Integrated Management Systems

Integrated Management Systems (IMS) is a great way of interlinking existing systems such as ISO14001/BS8555 (EMS); ISO9001 (QMS) and ISO18001 (OH & S) into one cohesive system. Using ISO14001 as a basis, the session will investigate overlaps between the three systems, and ultimately identify ways in which you can save your organisation time and money.

Training Date	Cost	Duration
TBA 2009	Free to members/new businesses; £50 non-members	2.5 hrs
